Mini Vertical Board for SATA Device to IDE MotherBoard

1. Introduction

Convert High Capacity SATA Blu-ray Disc, SSD, Hard Drive and SATA Storage Device to work with IDE Host Controller!

1.1. Features

- o SATA II 3Gbps Mini Adapter Board

- o Supports any type of SATA 1, SATA II and SATA III Device (Blu-ray Disc, SSD, DVD, DVD-RAM, CD-ROM, CD-RW, Hard Disk)

- o Convert SATA Drive like a standard IDE/ATAPI Drive

- o Compliant with Serial ATA 2.6

- o Support IDE Master, Slave and Cable Select Modes

- o SATA Hot-plug

- o ATA/ATAPI PIO mode data transfer

- o ATA/ATAPI UDMA data transfer rate of 150, 133, 100, 66, 44, 33, 25, 16.7 MB/s

- o ATA/ATAPI-7 Streaming feature set

- o 100% OS-transparent hardware bridge converter to support PC, MAC and Linux, no driver required

2. Installation

Step 1.   Connect power cable to J1 connector and PC Power Supply
Step 2.   Set J3 jumper on IDE Master mode or Slave mode or Cable Select mode
Step 3.   Attaches 22 pin SATA connector (P1) to the back of SATA Device
Step 4.   Connect IDE cable to J2 (40Pin connector) and Motherboard IDE Host

Important *   1) J3 must be set on Master Mode for Booting device**
1.   **2) If DVD compatible issue, try to add a jumper that short "ACD" pin header**

WEEE (Waste of Electrical and Electronic Equipment), Recycling of Electronic Products

United Kingdom

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. It is no longer allowable to simply throw away electrical and electronic equipment. Instead, these products must enter the recycling process.

Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your national law when you want to dispose of any electrical or electronic products.

More details can be obtained from your national WEEE recycling agency.

Germany / Deutschland

Die Europäische Union hat mit der WEEE Direktive umfassende Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Diese wurden von der Bundesregierung im Elektro- und Elektronikgerätegesetz – ElektroG in deutsches Recht umgesetzt.

Dieses Gesetz verbietet vom 24.März 2006 an das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernimmt die Gesamtheit der Gerätehersteller.

France

En 2006, l'union Européenne a introduit la nouvelle réglementation (WEEE) pour le recyclage de tout équipement électrique et électronique.

Chaque Etat membre de l' Union Européenne a mis en application la nouvelle réglementation WEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

Italy

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate.

Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico.

Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operations.
